ABOUT ME

- **Highly motivated Ph.D. student specializing in material modeling, computer graphics, and machine learning/AI.**
- **Passionate about advancing the field through innovative research and collaborative efforts.**
- **Skilled in algorithm development, programming, and academic instruction.**

CAREER EXPERIENCE

Feb 2021 – Feb 2025

Ph.D. Student, Marie Curie Research Fellow

Linköping University, Sweden

Conduct advanced research on BRDF measurement and material modeling.
Publish findings in high-impact journals and conferences.
Collaborate within the Marie Curie Research Network.

2018–2020

Research Engineer, Lead Intelligent Equipment

China

Implemented computer vision algorithms in manufacturing.
Enhanced production efficiency through AI-based process optimization.

ACADEMIC BACKGROUND

2021 **ph.d student**

· Linköping University 

2014 **Physical Sciences**

M.A. · University of Science and Technology of China

2008 **Physical Sciences**

B.A. · China University of Mining and Technology 

PROGRAMMING

python

C++

LaTeX

PUBLICATIONS

2025 **Deep Image-Based Adaptive BRDF Measurement**

GRAPP 2025

Proposed a novel deep-learning-based approach for adaptive BRDF measurement.

2024 **Deep SVBRDF Acquisition and Modelling: A Survey**

Computer Graphics Forum

Comprehensive survey on deep-learning methods for SVBRDF capture.

2024 **Multidimensional Compressed Sensing for Spectral Light Field Imaging**

VISAPP 2024

Developed a compressed sensing framework for efficient spectral light field imaging.

GRANTS AND AWARDS

Travel Grant for International Conferences

Marie Curie Research Fellowship (2021)

Wen Cao  caowen3091@gmail.com  Nörrköping Sweden 

@ caowen3091@gmail.com

TEACHING

2023-2021 C++ Bachelor courses
